Brand Assessment Checklist

**How Strong
Is Your Brand?**

Your brand is the most important investment you will make in your business.

No marketing tactic or strategy generates a better return on investment over the long term than building a strong, reputable, and recognizable brand.

Whether you're just starting out or already have a foothold in your local market, it's important to assess your brand image at regular intervals to ensure it's helping you grow and not hindering your ability to scale.

Work through the checklist on the next pages to determine what's already working and what needs fixing in order to maximize your brand ROI.

Then, use the list of creative assets we've included as inspiration for your next branding and marketing campaigns!
